

2020-2021 ANNUAL REPORT

Stephen J. Caldeira
President & CEO

Dear Colleague,

It is my pleasure to share with you this annual report highlighting the accomplishments of the Household & Commercial Products Association (HCPA) in 2020 and through the first three quarters of 2021.

This annual report was once again completed as COVID-19 and the Delta Variant continued to wreak havoc around the globe. Our industry continued to respond quickly by keeping up production of lifesaving cleansers and EPA-approved disinfectants, as well as donating tens of millions of dollars and critical resources to the COVID-19 response. HCPA successfully ensured that officials at the Department of Homeland Security and all levels of government understood that our supply chain was part of the critical infrastructure workforce.

We continue to redouble our media relations efforts to educate consumers through interviews, podcasts, op-eds, and various online platforms. As our fight against this terrible disease continues, we will keep you informed about our stepped-up activities to make the world a safer place.

As always, the leadership of our members and our collaborative relationships with allied trade associations, NGOs, and bipartisan policymakers on Capitol Hill and in the states make our success possible. Thank you for your ongoing support. A digital version of this annual report can be downloaded at www.thehcpa.org/annualreport.

Sincerely,

A handwritten signature in black ink that reads "Stephen J. Caldeira". The signature is fluid and cursive, with the first name being the most prominent.

Stephen J. Caldeira
